dent downward tendency.

We are just in receipt of later news from Liverpool, which brings a decline of 1-8 of a penny, and a dull market-together with quite unfavorable war news; Sevastopol not taken yet, and re-inforcements of troops on both sides. The English Government has called on the militia for Volunteers, which indicate a Winter's campaign.

We quote sales irregular to-day at 6 to 8 cents, but look for a further decline the ensuing week.

The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its mesticated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and health, to wear in the coldest or rainest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladles may wear the lightest soled boots or shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede overshoes, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being a mere thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides, those who patronize them will find their yearly doctor's bill much diminished therely.

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh and Berlin our sales reached 1.782.459 pairs of Cork Soles. This year the number will far surpass that.
